

Eco Performance Award: two new jury members

Büssow and Rudkowsky replace Krinner and Abt, Reiche departs

Ratingen, 13.04.2015. On 4th May 2015 in Munich, the eighth Eco Performance Award ceremony will honour companies that operate particularly sustainably in the goods and private haulage transport industry. Several changes have recently occurred in the membership of the award's jury of experts from business and science: Knorr-Bremse Nutzfahrzeuge GmbH is now represented by Dr. Christian Büssow, Head of Logistics, who follows on from Managing Director Wolfgang Krinner. For Siemens AG, Steffen Rudkowsky, Senior Vice President and Head of EM Division Logistics, takes the place of his colleague, Andrea Abt. Both new jury members bring years of experience from the field of logistics and have already assisted in the current selection process. Katherina Reiche, Member of the German Bundestag and until February 2015 Parliamentary Secretary of State to the German Federal Minister for Transport and Digital Infrastructure, leaves the jury.

"We are very pleased with the new jury members. Christian Büssow and Steffen Rudkowsky contribute valuable expert knowledge that will be brought to bear in the evaluation of the submitted sustainability concepts," says Jury Chairman Dr. Wolfgang Stölzle from the University of St.Gallen.

With the award, DKV Euro Service, the Chair of Logistics Management at the University of St.Gallen and Premium Partners Knorr-Bremse and the PTV Group acknowledge outstanding concepts that have best balanced the demands of economic, ecological and social sustainability. The awards will

DKV Euro Service

DKV Euro Service has been one of the leading service providers to logistics and transport businesses for about 80 years. From cash-free service en route at 55,300 brand-independent acceptance points through toll billing to Value Added Tax refunds, DKV offers a host of services for cost optimization and fleet management on Europe's roads. DKV is part of the DKV MOBILITY SERVICES Group, which employs over 700 people. In 2014, the Group achieved a turnover of 5.7 billion euro and is represented in 42 countries. Currently around 2.5 million DKV Cards and On Board Units are used by over 120,000 customers. In 2014, the DKV Card was named for the tenth time in a row as the best brand in the fuel and service cards category.
